

*"We need to be present today with our kids, it's not OUR generation...but we still have influence in shaping THEIR generation"*

**La Mirada**~Shining a light on the emotional turmoil caused by cyber-bullying, #TheWall examines a new method of perpetuating one of the oldest teen issues known to society, Thursday May 18<sup>th</sup> at 10:00 a.m. and 7:00 p.m at the La Mirada Theatre for the Performing Arts.

The themes include real-life stories picked right out of the ashes of tragedy, depicting actual accounts involving teen suicides brought upon by cyber bullying, catfishing and the posting of sexually exploitative photos, which when posted, live on forever. This show focuses heavily on short-term actions, which levy very long term consequences.

Teens and families alike will absolutely resonate with the stories told, and through the medium of performing arts, will gain a heightened awareness of the world in which young people are growing up. There are many lessons to be learned from this play, and given many tragic stories of late, this feels timely.
